NOTE.—The Census of the aboriginal population of the State is collected annually by the police on behalf of the Aborigines Protection Board. Great difficulty is experienced by them in collecting the Census, especially in the remote districts, owing to the nomadic habits of the race, many of whom frequently cross the borders of the State, or travel from one locality to another in the State. Under the circumstances, therefore, the figures in the above table can be regarded as only approximate.

## No. 1.—State Parliament Election, 1917.—Electors and Voting.

[The Election of Members to serve in the Legislative Assembly of New South Wales took place on the 24th March 1917. Second Ballots were held in eight Electorates on the 31st March and 7th and 14th April.]

The Parliamentary Elections (Second Ballot) Act, 1910, provides that for election a candidate must receive an absolute majority. Where this does not take place, a second ballot must be taken between the two candidates occupying the first and second positions. For results of Second Ballots, see end of Table.

*Legislative Council.*—A maximum number of members of the Legislative Council is not fixed by the Constitution Act. In December, 1916, the number of members was fifty-five. Members receive no allowance for expenses, but travel free over the Government railways and tramways in the State. The President of the Legislative Council receives a salary of £750 per annum, and the Chairman of Committees £470 per annum.

*Legislative Assembly.*—New South Wales is divided into ninety electorates, each of which is represented by one member in the Legislative Assembly. The Legislative Assembly continues for three years from the day of the return of the writs of election unless dissolved by the Governor. Each member (except when holding an office of profit under the Crown as a Minister, Speaker, or Chairman of Committees) is entitled to receive the sum of £500 per annum (Parliamentary Representatives' Allowance Act, 1912) by way of reimbursement for expenses incurred in the discharge of Parliamentary duties. Members travel free over the Government railways and tramways in the State, and are provided with official stamped envelopes for the free transmission of correspondence through the post. The Speaker of the Legislative Assembly receives a salary of £1,099 per annum, and the Chairman of Committees £710 per annum.

\* Under the Fire Brigades Act of 1909, which came into operation on 1st January, 1910, the responsibilities of all the fire brigades in the State were transferred to the Board of Fire Commissioners of New South Wales. The revenue of the country fire brigades is derived from contributions from the Government, the municipal or shire councils interested in the respective fire districts, and the fire insurance companies insuring property within such districts, in the proportion of one-third each, and this sum represents practically the expenditure for the year.

† There were in addition 2 chimney fires and 50 false alarms.

**Gross and Net Value of Estates.**—The figures from the Probate Court and Stamp Duties Department (see Part "Public Finance") relating to transactions in the estates of deceased persons do not agree. The Court gives the gross value of the estates, and includes those estates which, after investigation, are found not to be subject to duty. The number of petitions is also swollen by probates and letters of administration on some estates being taken out a second time. The amount given by the Stamp Duties Department represents the net value of the estates.

\* In 1914 one Decree for Jactitation was granted, not included in the Table.

NOTE.—Included in the petitions in *forma pauperis* during 1915, there were—nullity of marriage, 1; judicial separations, 3; and restitution of conjugal rights, 13; and in 1916—nullity of marriage, 2; and restitution of conjugal rights, 15.

Prior to the passing of the Matrimonial Causes Act of 1873, the Supreme Court of New South Wales had no jurisdiction in divorce. Under that Act the chief grounds for divorce were adultery since marriage on the part of the wife, and adultery and cruelty on the part of the husband. The present Act was passed in 1892, and during 1893 there was an amending Act. Under these Acts petitions for divorce may be granted for the following causes, in addition to those already mentioned:—

*Husband v. Wife.*—Desertion, or habitual drunkenness and neglect of domestic duties for three years; refusal to obey an order for restitution of conjugal rights; imprisonment for three years and upwards; attempt to murder or inflict grievous bodily harm, or repeated assaults and cruel beatings during one year preceding the date of the filing of the petition.

*Wife v. Husband.*—Adultery and desertion for two years; desertion, or habitual drunkenness, with neglect to support and cruelty, for three years; refusal to obey an order for restitution of conjugal rights; imprisonment for three years and upwards; imprisonment under sentences aggregating three years, within a quinquennial period; attempt to murder, or to inflict grievous bodily harm, or repeated assaults and cruel beatings within one year of petition. In order to obtain relief on any of these grounds, the petitioner must have been domiciled in the State for three years and upwards at the time of instituting the suit.

*Nullity of Marriage.*—Petitions may be granted in cases of marriages which are void by the law of the land; where some statutory requirements have not been observed; or in which one of the parties is incapable to perform the duties of marriage, or has been joined in the marriage ceremony through coercion, or threats; also on the ground of mental incapacity.

*Judicial Separation.*—In addition to the principal causes for which a divorce may be obtained, judicial separation may be granted for desertion without cause or not less than two years.

*Restitution of Conjugal Rights.*—Before a suit may be brought, there must have been a request of a conciliatory character to the other party to return to cohabitation.

NORE.—Prior to 1st July, 1911, there was a Vice-Admiralty Court (appointed by the Admiralty) consisting of the Chief Justice as Judge Commissary, and with him was associated a Puisne Judge of the Supreme Court as Deputy Judge. On that date the Vice-Admiralty Court ceased to exist, and the Supreme Court became a Colonial Court of Admiralty, with power to hear and determine matters previously determined in the Vice-Admiralty Court.

NOTE.—The Industrial Arbitration Act, 1901, provided for the registration and incorporation of Industrial Unions, for making and enforcing industrial agreements, and for the constitution of a Court of Arbitration for the hearing and determination of industrial disputes and matters referred to it. The Court was composed of a Judge of the Supreme Court, with one representative each of employers and employees. Under the Industrial Arbitration (Temporary Court) Act, 1905, a Judge of the District Court was made President of the Court.

The Industrial Disputes Act of 1908 preserved the results of the working of the Court of Arbitration. This Act was operative up to and including the 17th April, 1912, when it was superseded by the Industrial Arbitration Act of 1912. The conditions of trade may be settled voluntarily by an industrial agreement or compulsorily through the medium of the Industrial or Wages Boards, and the Industrial Court,

*Appeals.*—The right of appeal may be exercised only in cases in which the amount claimed exceeds £10, and the appeal must be made either on points of law or in respect of the admission or rejection of evidence.  
*Cases tried by Jury.*—In all actions where the amount claimed exceeds £20, the Judge may order, or the plaintiff or defendant may demand, that a Jury be summoned, by giving notice to the Registrar of the Court.  
*Number of District Courts.*—At the end of the year 1916 there were 68 District Courts in the State, and 8 District Court Judges.

*Garnishee Cases.*—Upon the *ex parte* application of any creditor who has obtained a judgment, the Court may order that all debts due by a third person (the garnishee) to the defendant, except in the cases of wages or salary at £2 per week or under, shall be attached to meet the judgment debt; and, by a subsequent order, may direct the garnishee to pay as much of the amount owing by him as will be sufficient to satisfy the judgment debt. In cases where wages or salary exceed £2 per week, an order may be made only for the amount of wages or salary in excess of that amount. The total cases in 1916 numbered 1,239.  
*Interpleader Cases.*—When a claim is made to goods held under a writ of execution by a person not party to the suit, the Court may decide the claim, upon application by the bailiff. There were 47 cases in 1916.  
*Examination of Judgment Debtors.*—On the application of a judgment creditor, the Court may order the judgment debtor to be orally examined as to any debts due to him. The cases in 1916 numbered 724.

*Criminal and Quasi-Criminal Appeals.*—Appeal from Courts of Petty Sessions to Quarter Sessions is a remedy for bringing the Orders and Convictions of Justices under review at Quarter Sessions. The Court decides questions of fact as well as of law. The right of appeal exists in all cases of convictions or orders by Magistrates excepting orders made under the Seamen's Act, and in cases of adjudication to imprisonment for failure to comply with an order for payment of money, and for finding sureties, &c.

*Special Cases* from Courts of Petty Sessions must be brought, in the first instance, before the Judge sitting in Public Chambers, who is vested with the authority and jurisdiction of the Supreme Court and who may refer such cases to the Full Court. Land Appeal Cases and cases under Local Government Act, 1906, are set down for argument before the Full Court only. Special Cases from Wardens' Courts are brought, in the first instance, before the Judge sitting in Public Chambers, unless both parties consent to place their case before the Full Court. The Judge may refer any such case to the Full Court.

*Street-trading Licenses.*—The Neglected Children and Juvenile Offenders Act, 1905, which came into force during October, 1905, provides for the licensing of children engaged in street-trading. Badges are worn during the time of such trading. Only boys between 12 and 16 years may be licensed; the hours of trading are from 7 a.m. to 7 p.m. for boys under 14 years, and from 6 a.m. to 10 p.m. for boys over 14 years. Girls under 16 years of age are prohibited from trading. Boys of school age may not trade within school hours. Playing, singing, or performing for profit are permitted only in the case of boys over 14 years of age.

*Theatre Licenses.*—The Children's Protection Act, 1902, prevents children from taking part in public exhibitions or performances whereby the lives or limbs of such children are endangered. Where, however, it is shown that proper provision has been made for the health and kind treatment of children to be employed at premises licensed for public entertainments, children over 7 years of age may be granted licenses under restrictions and conditions. These licenses may be rescinded at any time.

Amount Lent ... ..	£ 111,904	158,182	233,665	204,020	609,067	451,750

Sums secured by Lien on Wool and by Mortgage of Sheep.—When any sum has been secured, both by a lien on the wool and by a mortgage of the sheep, the amount is included under the head of mortgages only.

In 1916 the gross amount lent on liens was £327,871; but from this has to be deducted the sum of £164,485 secured both by lien on the wool and mortgage on the sheep, so that the net amount lent on lien was £163,386.

Mortgages on Wool and Crops discharged.—Liens on wool and on growing crops mature at the end of each season, and terminate without formal discharge. During 1916 there were 16 formal discharges of wool liens registered, representing £5,444.

**No. 78.—Habitual Criminals—Persons Sentenced, 1907–16.**

*Habitual Criminals.*—Under the "Habitual Criminals Act, 1905," a person convicted of an offence mentioned in the schedule to the Act, who has been previously so convicted on at least three (in certain cases two) occasions of an offence in the same class, may be declared an "Habitual Criminal."

A definite sentence is served as an ordinary prisoner, after which he is detained during His Majesty's pleasure, subject to release under certain conditions.

*The Inebriates Act.*—The Inebriates Act, 1912, provides for the special control and treatment of inebriates. Where a person has been convicted of an offence of which drunkenness is a component; or of assaulting women, cruelty to children, attempted suicide, or wilful damage to property, and it appears that drunkenness was a contributing cause of such offence, a Stipendiary or Police Magistrate may order that such offender be placed for a period of twelve months in a State Institution established by the Governor for the treatment of inebriates. On the order of a Judge, or of the Master-in-Lunacy, such period may be extended for further periods not exceeding twelve months each. Where a person has, after 9th September, 1909, been discharged from a State institution, or released on license, or discharged on recognizances, and within twelve months thereafter has been convicted of an offence of which drunkenness is a component, and has subsequently and during the said twelve months been charged with any offence, as herein mentioned, the Court may order him to be placed in a State Institution for a period not exceeding three years. Inmates are employed in remunerative and useful occupations.

Punishments inflicted on Prisoners for breaches of discipline.—During 1916, under 1·1 per cent. of the prisoners received punishment, and the offences were generally of a trivial character. There have been no floggings, ironings, or other severe forms of punishment, and the dark cells were abolished some years ago.

Gaol Libraries.—The Gaol Libraries contain 23,466 carefully-selected volumes for recreation and instruction of prisoners after working hours.

*First Offenders.*—Under the provisions of the Crimes Act of 1900, as regards any person who has not been convicted previously of an indictable offence in New South Wales or elsewhere (in so far as is known to the Court) and is convicted of a minor offence, and is sentenced upon such conviction to penal servitude or imprisonment, the Court may suspend the sentence upon the offender entering into a recognizance, with or without sureties, to be of good behaviour for the period of such sentence if for twelve months or over; or, if under twelve months, then to be of good behaviour for the full period of twelve months.

*Children Released after Conviction.*—The Neglected Children and Juvenile Offenders Act, 1905, provides that where a child is summarily convicted of an offence entailing imprisonment, the Court may release the child on probation upon such conditions as may seem befitting. For the number of cases in which this applied, see Children's Courts, Table 86.

## No. 17.—Imports Oversea, 1916-17.

**NOTE.**—With the exception of the United Kingdom and New Zealand, only those countries are shown under each article where the value of import according to "Country of Origin" exceeded £500.

**Value of Imports.**—The value of goods imported from countries beyond the Commonwealth represents the amount on which Duty is payable or would be payable if the Duty were *ad valorem*. The value of goods subject to Duty is taken to be the fair market value in the principal markets of the country whence the same were exported, with an addition of 10 per cent. to such market value.

**Quantities.**—Generally, but not invariably, quantities have been shown in the ordinary trade unit. Where Imports have been declared in packages without an indication of the number, capacity, or weight of the articles imported, only the values have been inserted.

*N.E.I.* means "Not elsewhere included."

**Import Duties.**—Duties charged on Imports into New South Wales are collected under the Commonwealth of Australia Customs Act, 1901 (No. of 1901); the Customs Tariff, 1906, South African Preference (No. 17 of 1906); the Customs Tariff, 1908-11 (No. 19 of 1911); (proposed) Customs Tariff, 1914 and the Customs Tariff Validation Act of 1917, No. 6.

**Duty Paid.**—The particulars entered against the line "Duty paid" represent the quantity or value on which duty was paid, and the gross amount of duty paid. (o.r.), opposite "Duty paid" denotes the quantity or value of articles on which Duty was paid at rates in force prior to date of "proposed Tariff, 4th December, 1914"; other amounts represent values or quantities on which Duty was paid at rates since that date.

Articles which do not show any quantity on which Duty was paid, are to be taken as free of Duty, except where otherwise stated. Free goods *also* include articles the property of the Commonwealth, or which are imported for the use of the Commonwealth, the State Governor, Foreign Consuls, or various Educational and Public Institutions.

## No. 19.—Exports Oversea, 1916-17.

Note.—With the exception of the United Kingdom and New Zealand, only those countries are shown under each article where the value of the export exceeded £250.

The difference between the value of Australian produce exported and the total export represents the value of produce of oversea origin, re-exported.

Value of Exports.—The value of goods exported is the value in the principal markets of the State in the ordinary commercial acceptance of the term.

Exports—Australian Produce.—Articles which were partly or entirely manufactured from imported materials are shown under this heading. The Commonwealth Customs Department does not now distinguish between the produce of New South Wales and that of other States, the whole being classified as "Australian."

Quantities.—Generally, though not invariably, quantities have been shown in the ordinary trade unit. Where exports were declared in packages without an indication of the number, capacity, or weight of the articles exported, only the values have been inserted.

N.E.I.—Means "Not elsewhere included."

Ships' Stores.—Goods shipped as ships' stores on board oversea ships have not been included in exports. For ships' stores, see Table No. 20.

\* The figures quoted represent the area on which the balance of purchase-money was paid during the year, and consequently average price per acre cannot be given.

**Exchanges, and Road Resumptions.** Surrenders and exchanges are effected under Sections 195, 196, 197 of the Crown Land Act of 1902, and Road Resumptions are treated under the Public Roads Act, 1902. As land is exchanged for land without any monetary consideration the extent of the area of Crown Land is not thereby affected.

**Resumptions and Purchases.** The total alienations represent the gross area, no allowance being made for the gifts of land and the resumptions and direct purchases made from private owners on behalf of the various departments, for particulars of which see Table No. 41.

Land acquired by the State. Land may be acquired by resumption, purchase, exchange, surrender, and by gift. Resumptions are made under the "Public Works Act" and the "Lands for Public Purposes Acquisition Act." All resumptions, other than those made by the Minister of Public Instruction and the Commissioners for Railways, are treated by the Government Land Valuer. Resumptions under the Commonwealth Lands Acquisition Act, 1906, are also included.

NOTE.—Under the Closer Settlement Promotion Acts, three or more intending settlers, each possessing the qualifications necessary to hold a settlement purchase, may enter into negotiations for the purchase of suitable land in their own district or in localities where they may wish to settle, and each person must hold his farm solely in his own interests and not on any system of co-operation with the other applicants. Each applicant is required to lodge a deposit of £5, and any further sum required to meet costs of dealing with his application, survey, &c. The next cost is 6½ per cent. of the Crown valuation of the farm, the other 93½ per cent. being advanced by the Government Savings Bank; thereafter, annual instalments of 6½ per cent. (being 5½ per cent. interest and 1 per cent. capital) must be paid until the whole indebtedness is discharged in thirty-two years.

The following table sets out the scheme for repayment of the purchase money:—

Capital value	£ 100
Deposit	5
Annual instalment	6½
Interest on unpaid balance	5½ per cent. per annum.

It is competent for an applicant to pay two or more instalments at any time, should he so desire. Provision is made for postponement of one or two instalments on application to the Minister, which may be granted, should it be decided that the circumstances warrant it. An applicant may obtain from the Government Savings Bank an advance on the value of improvements which may have been effected on the farm by the Settler.

LOCAL GOVERNMENT.

---

## EXPLANATION.

THE tables in this volume were compiled from returns supplied by the various local governing bodies.

The financial tables were summarised from statements prepared by the Councils according to the forms prescribed by the Regulations under the Local Government Act, 1906. These regulations provide that the accounts must be Income and Expenditure Accounts, kept by double entry, and that each "Fund" must have a separate banking account. Thus there is shown for each General, Special, Local, or Loan Fund, and for each Trading Fund, of each area concerned, a "Revenue Account" (or Profit and Loss Account) giving the total expenditure chargeable for the period (whether paid or unpaid) and the total income for the same period (whether received or outstanding). A balance-sheet is also shown for each Fund with appropriate liabilities and assets. Only "realisable" assets are allowed to be included; so that the whole of the roads, bridges, drains, and other constructive works, which are often taken to account as assets elsewhere, are here excluded.

*General Fund.*—The Local Government Act prescribes that there must be a general fund in each local governing area (municipality or shire), to which must be paid the proceeds of all general and additional general rates, and moneys received by way of grant, endowment, &c., from the Government, and other income not required by law to be carried to other funds. The expenditure from the fund must be on administration, health, roads, and other public services, with the exception that unless exemption has been granted by the Governor, the cost of nightsoil and garbage removal must not be paid out of the General Fund, but out of a Special Fund, and the cost of lighting streets and roads must also be defrayed from a Special Fund. When, however, the municipality is wholly within twenty miles of the Sydney Post Office, or when the whole area of the municipality is benefited by the expenditure on street lighting, the Council may, in its discretion, pay such cost out of the General Fund.

*Special Fund.*—A Special Fund must be kept for each special rate levied, and for each work or service carried on by the Council in respect of which the special rate has been made, and the fund must be applied only for the purposes of such work or service. A special rate is levied only for a special object and applies to the whole area.

*Local Fund.*—A Local Fund must be kept for each local rate levied, with similar restrictions to those in the case of special funds. A local rate is levied for a local purpose, and applies only to that portion of the area which is benefited, and the expenditure of the local fund is restricted to work within, or for the sole benefit of, that portion of the area.

*Loan Fund.*—A separate loan fund must be kept in respect of each work or service on which a loan is owing. Except where a loan fund has its own revenue from rates, &c., the obligations attendant thereon, such as provision for the repayment of principal and interest, may be met by transfers from the General Fund or other appropriate fund. The object of the loan, as a rule, determines the source from which the Loan Fund obtains its necessary revenue. When the loans have been raised for general purposes transfers are made from the General Fund, and the profits of trading concerns provide for the disbursements of their corresponding loan funds. This refers more particularly to those Loan Funds which must be kept in respect of loans which were raised before the new Act came into operation.

The revenue of special and local funds may be used in a similar manner; for example—a Street Lighting Special Fund must provide the money to meet the ordinary cost of maintaining the street lighting for the year, as well as the obligations of the Street Lighting Loan Fund; and the same conditions apply to all other loan Funds.

The financial transactions of the City of Sydney are shown separately from the other municipalities of the State, as the City Council conducts its affairs under the Sydney Corporation Act, and not under the Local Government Act.

(e) NOTE.—The letter (e) after the name of a municipality indicates that the municipality in question has Loan Funds which derive revenue from rates. As the administrative expenses of Loan Funds are paid from the General Fund, the revenue from rates of the Loan Funds in the cases marked should be added to the General Fund income whenever the proportion of Administrative expenses to Total Income is required.

NOTE.—An "Old Loans Interest" Local Fund is required by Sec. 169 (4) of the Local Government Act which provides that where an area was added to the Municipality by the Shires Act, and such Municipality had contracted a Loan which was unpaid at that time, then the interest on such Loan is to be raised (during a period of not less than five years after the addition) by a Local Rate in the old Municipality.

**Municipal Elections.**—Under the Local Government Act of 1906, elections in all municipalities are held triennially. The first election under the Act was held on the 1st February, 1908.

In the City of Sydney elections are also held triennially, on the 1st December. The last election took place on 1st December, 1915.

The "Ratepayers' Roll" contains the names of owners of ratable property, of managers, &c., of public companies which own ratable property, and of lessees of ratable Crown Land. Only ratepayers have the privilege of voting at "polls" held under the Act.

The "Electors' Roll" contains the names of owners of ratable property, and of occupiers who have had a minimum of three months occupation of ratable property.

\* This part of County is in the Western Land Division.

NOTE.—The females engaged in farming, according to the foregoing table, number 9,433, and in dairying 16,644. The great majority of these (probably 4,000 in agriculture and 12,500 in dairying) were only partly employed, the rest of their time being devoted to domestic duties. The census of 1911 shows 1,796 women engaged in agriculture and 3,106 in dairying.

\* This column indicates the holdings (for whatever purpose used) on which there was cultivation, however slight. † Since 1909 the figures have been compiled on a slightly different basis to that followed in previous years. The information now obtained is more extensive, and the figures represent the actual growers of fruit, even if there be only a few trees on the holding.

‡ Wine grapes were grown on 247 holdings, and Table grapes were grown on 1,188 holdings.

NOTE.—There were 9,511 holdings on which orchard fruit (citrus or other) was grown during 1916-17.

\* Of the 178,734,900 gallons of milk used for making butter, 419,537 gallons, or 0·23 per cent., were treated at public separating stations or butter factories. The balance treated on farms was 178,315,363 gallons, and of this quantity 17,014,393 gallons were separated by steam-power. The hand-separated milk was 161,300,970 gallons, representing 90·25 per cent. of the total amount used for making butter.  
† See note to Table No. 29. ‡ Includes 11,368,295 gallons pasteurised for Metropolitan Markets.

NOTE.—The total length of State-constructed barrier fencing is 1,332 miles, erected at a cost of £69,888. It is estimated that about 102,588½ miles have been erected in addition by private enterprise, at an estimated cost of £6,154,034, and 577 miles by Pastures Boards at a cost of £28,011.

\* Although the Rabbit Act of 1901 was repealed on 24th December, 1902, by the Pastures Protection Act, 1902, it continued in force until the date of the first election of Pastures Protection Board in 1903. The expenditure since 1902 has consisted mainly of payments to the Railway Commissioners for the maintenance of rabbit-proof barrier fences.

**Private Bores.**—These bores are situated on private holdings, and have been made at the sole cost of the owners.

**Water Act, 1912.**—The Water Act, 1912, consolidates the Acts relating to Water Rights, Water and Drainage, Drainage Promotion, and Artesian Wells. Part II of the Act vests in the Crown the right to the use, flow, and control of the water in all rivers and lakes which flow through or past, or are situate within, the land of two or more occupiers. It abolishes "riparian rights," and establishes a system of licenses for works of water conservation, irrigation, and drainage. Prior to the passing of the Act relating to Water Rights such works on creeks and rivers, constructed by private individuals, were liable to destruction by any person who considered their existence opposed to his interests. It is now illegal to interfere with any work for which a license has been granted. The security provided is stimulating the construction of irrigation works of a better class throughout the State, and up to the end of June, 1917, the total number of applications received in respect of new licenses, or for renewal of licenses, was 4,022.

Part III of the Act provides for the supply of water, either for irrigation, stock, or domestic purposes, and for drainage, the liabilities on which are repaid to the Crown with interest spread over a period of years, and the works are administered by Trustees appointed from among the beneficiaries under the Act. For the supply of water, trusts have been constituted in connection with (a) 61 artesian wells, (b) 5 schemes for the improvement of natural off-takes of effluent channels, for the purpose of diverting supplies from the main rivers, (c) in 3 instances for the construction of dams across stream channels, and (d) 2 pumping schemes from natural watercourses. The total area included within these trusts amounts to 4,783,841 acres. In addition, 33 trusts have been constituted for the purpose of draining lands and rendering them fit for pastoral and agricultural purposes, and the area dealt with up to the present amounts to 133,098 acres. The total length of drainage channels constructed is 118 miles 59 chains, the total cost being £114,980, or an average of about 17s. 3½d. per acre. The preparation of 5 additional proposals is in hand. These cover an area of 9,029 acres and involve the construction of 9 miles 4 chains of drainage channels, at an estimated cost of £6,990.

**Artesian Wells Act.**—12 bores have been sunk, watering an area of 324,947 acres.

**Public Watering Places.**—At 30th June, 1917, there were 763 Public Watering Places, consisting of 402 dams, &c., 101 wells, and 24 bores within Shire Boundaries, and 171 dams, 15 wells, and 50 bores in the Western Division.

**Irrigation Settlements.**—For some years Irrigation Settlements have been in operation at Wentworth and Hay, and formerly they were under the administration of the Agricultural Department. These areas are now under the control of the Water Conservation and Irrigation Commission.

The Murrumbidgee Irrigation scheme provides for the storage of sufficient water at Burrinjuck Dam to irrigate eventually 250,000 acres. The first subdivision was made in July, 1912, and at the close of June, 1917, there were in occupation on the Yanco subdivision 600 farms, aggregating 29,661 acres, and on the Mirrool subdivision 222 farms, comprising 9,914 acres. The lands are subdivided into intensive and mixed farming blocks ranging from 10 acres to 264 acres according to location and the nature of the soil. For water the annual charge is 5s. per "acre-foot," i.e., sufficient water to cover 1 acre to the depth of 12 inches, but the charge is reduced by half for the first year, and is then increased yearly by 6d. per "acre-foot" to the full charge.

The Curlew Irrigation Area at Wentworth consists of about 10,600 acres. Seventy leasees occupy 8,200 acres, of which 1,318 acres are irrigable, the balance representing the dry areas held in conjunction with the irrigated lands. Approximately 1,100 acres are under cultivation, the greater part being devoted to fruit trees, including oranges, peaches, nectarines, pears, sultanas, and currents. The pumping machinery consists of a suction gas plant supplying two engines of about 55 B.H.P. each, with an average combined capacity of about 4,600 gallons per minute. The length of the main channels is 4 miles 24 chains, and of subsidiary channels 4 miles 31 chains; in all, 8 miles 55 chains. The Wentworth Irrigation Act provides for leases being issued for periods not exceeding thirty years. Rentals range from 1s. to 10s. per acre per annum; at present the minimum water rate is 10s. per acre per annum, and the maximum 20s. per acre per annum. Under the existing by-laws each leasee is entitled to receive a quantity of water equivalent to a depth of 30 inches per annum, with a limitation that not more than 4 inches shall be supplied in any one month.

The Hay Irrigation Area contains about 4,160 acres. Eighty settlers are in occupation, the area leased comprising 970 acres of irrigable land, and 1,450 acres classed as dry areas, held mainly in conjunction with the irrigated blocks. Leases are issued for a period of thirty years, the rental ranging from 5s. to 10s. per acre per annum. The present water rate is 11 per acre per annum. Under the existing by-laws each leasee is entitled to receive a quantity of water equivalent to a depth of 24 inches per annum, with the limitation of not more than eight waterings in the season. Dairying, combined with pig raising, is the principal occupation of settlers. The crops grown are mostly for fodder. The Area not only supplies the town of Hay with fresh milk, but produces, in almost all seasons, sufficient cream to keep the Hay Co-operative Butter Factory going throughout the year. The cultivation of fruit has not been extensively taken up, owing probably to the distance from market, but sufficient is grown to meet local requirements. The pumping machinery is very similar to that employed at Wentworth, the capacity of the pumps being 4,000 gallons per minute.

‡ The Sulphide Corporation, the only company smelting silver-lead ores in this State during these years on any scale, exported all its bullion as silver-lead, the refining being done abroad; the product is, therefore, classed under heading "Silver-lead," vide preceding Table.

§ Contents of bullion, by average assay, produced within this State.

|| Inclusive of lead-carbonate and lead-chloride, products of the leaching plants at Broken Hill.

The Miners' Accident Relief Act, 1900, and amending Acts, which applied only to mines in or about which 15 or more persons were employed, were repealed by the Miners' Accident Relief (Repeal) Act, 1916, which came into operation on 1st July, 1917, and dissolved the Board administering the fund. During the currency of the Fund, claims were admitted in respect of 954 deaths by accident, and 79,887 disablements. For total number of miners, see Table No. 96.

**No. 100.—Prospecting Votes—Comparative Table.**

**Prospecting Vote.**—The sum of £7,000 was voted for prospecting for gold in 1878, and in subsequent years, at irregular intervals, further small sums were voted and expended. In accordance with a resolution of Parliament, an amount has been voted each year since 1887, during which year it was confined to searching for gold. In the succeeding year the conditions were amended so as to embrace all minerals.

\* Prior to 1909 one wine distillery is included; in 1909 and after two are included.

NOTE.—In addition to the quantity of white spirit shown above as distilled from wine, 8,154 gallons were distilled by vigneron during 1916-17. Altogether during that year 120,359 gallons of wine were distilled by vigneron and at distilleries to produce 18,856 gallons of white spirit.

The greater part of the white spirit distilled from molasses is rectified or methylated. Of the remainder, part is used for making rum, and part for fortifying vinegar, perfumes, &c.

In 1916-17 almost all the white spirit distilled from wine was used for making brandy. A small quantity was used for fortifying other wine.

During 1916-17 the following quantities of spirits were manufactured:—Brandy, 7,850 gallons; rum, 42,609 gallons; rectified spirits, 775,537 gallons; methylated spirits, 1,119,610 gallons.

## No. 54.—Average Weekly Wages, according to Occupation, 1916.

(PERSONS AGED 21 YEARS AND OVER.)

The following Statistics in Tables 54, 55, and 57 to 60 are obtained from Returns collected under the Factories and Shops Act of 1912.

The following places are Factories within the meaning of the Factories and Shops Act:—

1. Any place (including a laundry and dye-works) in which four or more persons are engaged directly or indirectly in working at any handicraft, or in preparing or manufacturing articles for trade or sale. This does not, however, include any building or place in which the persons working are all members of one family.
2. Any place (irrespective of the number of persons employed, or of the fact that they are all members of the same family) in which steam or other mechanical power or appliance is used—
  - (a) In manufacturing goods, or
  - (b) In packing goods for transit.
3. Any place in which two or more Chinese are so engaged.
4. Any bake-house.

All Government workshops, including the Railway workshops, Government Dockyard, State Bakery, State Clothing Factory, State Brick Works, Timber Yard, and the Government Printing Office, are excluded from the returns.
